ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: PNEUMATIC POWER TOOL WITH ADJUSTABLE EXHAUST AIR OUTLET DEFLECTOR

(57) Abstract: A pneumatic power tool com-
prises a housing (10), a motor, a pressure air in-
let passage (11,15), an exhaust air outlet passage
(12,17), and an exhaust air outlet flow deflector
(14) including an outlet piece (20) with radial as
well as axial outlet openings (25, 26) and a valve
element (21) with radial as well as axial aper-
tures (30, 28), wherein the outlet piece (20) and
the valve element (21) are rotatable relative to
the housing (10) as well as to each other to bring
alternatively a radial opening (25) of the outlet
piece (20) into or out of alignment with a radial
aperture (30) of the valve element (21), and at
the same time bring the axial apertures (28) of
the valve element (21) out of or into alignment
with the openings (26) of the outlet piece (20),
thereby shifting the exhaust outlet flow direction
as desired between a radial direction and an ax-
ial direction.
